Personal Profile

Highly motivated and hard working, looking to work in the web design/ web development industry, bringing forward a set of skills gained throughout my studies. I enjoy working with others as part of a team.

Education

Institute of Technology Blanchardstown   **2013 - 2017**

Blanchardstown Rd North, Dublin 15

BA Creative Digital Media (Ordinary)

This course teaches students everything they would need to know in digital media. It produces very well rounded people with the ability to work in a range of roles in the industry ranging from web to photography to graphic design.

Modules Include :

- Web Design
- Web Development
- Content Management Systems
- Multimedia Development
- App Design & Development
- UX Design

DCU School of Computing   **2011 - 2011**

Glasnevin, Dublin 11

Two week course of HTML and CSS including the basics of web development. This introduction started with how to structure a HTML document and building a simple website. Then applying CSS to make the website more appealing and learning how a website is put on the internet.

St.Vincents Secondary School   **2007 - 2013**

Finglas Road, Glasnevin, Dublin 11

Leaving Certificate

Three Honour subjects and four Ordinary subjects.

Work Experience

Enhance.ie/ Granite   **2016**

Granite is a web company based in Cork. Granite owns Enhance.ie, but the Dublin office was known as Enhance.ie. I worked at Enhance.ie as a web designer. I worked with enhance for a period of 3 months as part of my work experience, then throughout the summer for 4 months.

At Enhance.ie, I worked with a team of designers to create visually appealing and functioning websites. I have worked on websites created for corporate businesses, florists, charities, restaurants and more. I coded and use wordpress themes for websites, which varied depending on the needs of the client.

I also worked on SEO. This involved creating meta data for the website so it can rank higher on the search engine results page. Once that is done, the progress and the results can be seen using Google webmaster tools.

Skills

Coding
HTML5, CSS3, SASS, JavaScript, PHP.

Software
Windows, Photoshop, Illustrator, Atom, Sublime Text, Mac OS, Wordpress CMS.

Creativity
Strong interest in design, photography and video.

Communication
Developed effective communication skills by working with various people in the digital media industry.
